DETAILED ACTION

Response to Amendment

1. The amendment filed November 21, 2005 has been entered; no new claims have been introduced.

Specification

2. Claims 6, 7, 10, 11, 14-16, 19-21 and 24-26 are objected to because of the following informalities: The recitation "A semiconductor device according to **any one of the claims**" should read, "A semiconductor device according to **claim #**". Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 13-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamazaki et al. ("Yamazaki") USPN 5,644,147.

Yamazaki discloses in figs. 3-5 a semiconductor device comprising: a first electrode 202; an insulating film 204/206 formed on said first electrode; a contact hole 224 (col. 9, lines 34-39) which is provided in said insulating film and has a depth so as to reach said first electrode; a gate wiring 208/222 which is formed on said insulating film and connected with said first electrode through said contact hole; a second electrode 218 or pixel electrode (as in claim 16) provided on said insulating film and a liquid crystal layer (not shown) provided over said second electrode (as

Art Unit: 2826

in claim 14), wherein said gate wiring and said second electrode are provided on said same insulating film, wherein said first electrode being overlapped at a percentage -- within the range recited in the claim -- of an area thereof with said second electrode (figs. 5A and 5B).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yamazaki.

Yamazaki omits that electronic equipment selected from the group consisting of a video camera, a digital camera and other various electronic equipment. However, Examiner takes Official Notice that an electronic equipment comprising a display device wherein said electronic equipment selected from the group consisting of a video camera or a digital camera is conventional and well known. Therefore, it would have been obvious to one skilled in the art at the time the invention was made to have used any of the various electronic equipment since Examiner takes Official Notice that due to their low power consumption, displays have become a necessary and indispensable structural element of an electronic equipment.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2826

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
